DETAILED ACTION

The following is in response to the amendment filed September 7, 2004. Claim 14 has been cancelled. Claim 16 has been amended. Claims 1, 10-13 and 16 are pending.

Drawings

Applicant has submitted new drawings on January 7, 2003. After examination of the drawings, it appears to the Examiner that the drawings belong to another application as they do not correspond to the explanations provided by the specification.

The drawings filed, originally on April 19, 2000, are accepted by the Examiner. Applicant may submit new drawings if desired.

Allowable Subject Matter

1. Claims 1, 10-13 and 16 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to independent claims 1, 12, 13 and 16, the prior art of record, Tai et al., Parker et al., and Ilbery et al., fail to disclose a method for transforming a digitized image by providing said image as a plurality of pixels, wherein data for each pixel is in a first format which is a grey scale image; and processing data of each of said pixels by employing data from a region of interest which includes at least one pixel following said each of said pixels, and includes a plurality of neighboring pixels, and specifically, producing a *second format* which is a *binary image*; further, the limitations disclose methods for producing a visually pleasing transition using half toning methods.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
